

In de jaren 60, 70 en 80 werd er voor nieuwe zegels een folder gemaakt met informatie over de zegels. Deze zgn. folders werden in een eerstedagenvelop gestoken. Vaak bevatten ze de zegels met eerstedagstempel. De folder is doorgaans een A4 in drieën gevouwen (6 pagina's), of 2/3 van een A4 (ca. 21x21cm) in tweeën (4 pagina's). In een enkel geval komt ook een verlengde A4 voor (ca. 40x21 cm) in 4 delen gevouwen (8 pagina's).

BONAIRE, ISLAND OF THE FLAMINGOS

Bonaire, situated at 12° - 15° N and 68° - 20° W is one of the ABC-islands (Aruba, Bonaire, Curaçao) of the Netherlands Antilles. Of these 'Leeward Islands' Bonaire is the second in size (112 square miles) and the third in number of inhabitants (5896). Bonaire has a most interesting history. Once the domain of Indians it passed into the hands of the Spaniards, the English, and the Dutch respectively. Pirates plundered the island more than once. In the 17th century Bonaire became a vast plantation and a salm-making territory for the West Indian Company.

In the 'Fort' in its capital Kralendijk cannons dating back to the Napoleonic era remind us of a turbulent past. Bonaire belongs to the Netherlands Antilles, which are an autonomous part within the Kingdom of the Netherlands. The Netherlands Antilles are governed in a democratic way.

Bonaire's warm and sunny climate is unrivalled. It is tropical, but thanks to the steady Trade winds the temperature is agreeable. Moreover, Bonaire is completely outside the range of hurricanes, and throughout the year it is possible to enjoy the beautiful scenery, to relax on the fine beaches, to go fishing, boating or sailing. Tourists will be enraptured with the huge colonies of brilliantly pink flamingoes and other exotic water-birds, and they will be most interested to have a look at the abandoned slave-cabins, and the almost deserted salt-pans. Convenient hotel accommodation is available at reasonable prices.

On the occasion of the opening of a 30-room bungalow type hotel the Postal Service of the Netherlands Antilles is going to issue a special postage stamp showing the new hotel. The designer of the stamp is **Oscar Ravelo Nadiet**. The stamp will be available for the public on and from **AUG 31, 1963** and will be on sale while supplies last.

BONAIRE, EILAND VAN DE FLAMINGOS

Bonaire, gelegen op 12° - 15° N en 68° - 20° W is een van de ABC-eilanden (Aruba, Bonaire, Curaçao) van de Nederlandse Antillen. Van deze 'Benedenwindse eilanden' is Bonaire het tweede in grootte (112 vierkante mijlen) en het derde in aantal inwoners (5896). Bonaire heeft een zeer interessante geschiedenis. Eens het domein van Indianen kwam het beurtelings in het bezit van Spanjaarden, Engelsen en Nederlanders. Zeerovers hebben het eiland meer dan eens geplunderd. In de 17de eeuw werd Bonaire een uitgestrekte plantage en een zoutwinninggebied voor de West Indische Compagnie. Zijn hoofdstad Kralendijk heeft in het 'Fort' kanonnen, die nog uit de Napoleontische tijd dateren: een herinnering aan een onstuig verleden.

Het warme, zonnige klimaat is onovertroffen. Het is tropisch, maar de constant aanwezige passaatwind zorgt voor een aangename temperatuur. Bovendien ligt Bonaire geheel buiten de orkaan-zone. Hierdoor kan men op het 'Eiland van de flamingo's' het gehele jaar genieten van het mooie landschap, de heerlijke stranden, de vele mogelijkheden om te vissen, bootje te varen of te zeilen. Ook de grote kolonies prachtige rose flamingo's en andere uithuisse zeevogels, de onbewoonde slavenhutjes en de bijna verlaten zoutpannen zijn grote attracties voor diegenen, die eens heerlijk willen uitrusten. Een geriefelijke hotel-accommodatie is tegen billijke tarieven beschikbaar.

Ter gelegenheid van de uitbreiding van de hotelruimte op Bonaire met een 30 kamers tellend hotel van het bungalow-type, zullen de Antilliaanse Posterijen een bijzondere postzegel uitgeven. Op deze zegel - ontworpen door **Oscar Ravelo Nadiet** - staat het nieuwe hotel afgebeeld. De zegel is vanaf **AUG 31, 1963** voor het publiek verkrijgbaar en wordt verkocht zolang de voorraad strekt.

The Netherlands Antilles, six islands in the Caribbean, census 190,000 population, have to face equal problems in the field of child protection like everywhere else.

To promote an efficient youth care the Antilliaanse Youth Federation, at present with 18 affiliated institutions, was founded.

Under the auspices of aforesaid Federation the Postal Administration of the Netherlands Antilles is trying to issue a series of postage stamps usually in aid of the Antilliaanse child.

This time a drawing contest among 46,128 schoolchildren has been organized with the motto "For the child by the child" in order to obtain a design for the new series.

The Press, Radio and TV, gave wide publicity to this drawing contest.

The five most adequate and original drawings were selected from 2700 contributions and destined for designing the child postage stamps.

Said five prize drawings were made by five children originating from Curaçao, Aruba, Bonaire and Saba, pupils of the 1st, 2nd, 3rd and 5th grade, respectively.

The designs have therefore to be considered as an attempt to stimulate the activity of the child to help their fellow children.

The series consist of 5 values as shown in this brochure, with a watermark to the benefit of the Antilliaanse Youth Federation.

De Nederlandse Antillen bestaande uit zes eilanden ingepand in het Caraïbisch gebied met een bevolkingsgetal van 190.000, kennen dezelfde problemen op het gebied van kindbescherming als overal elders.

Ter bevordering van een doeltreffende jeugdzorg werd hier twee jaren geleden de Federatie Antilliaanse Jeugdzorg opgericht, waarbij thans 18 stichtingen zijn aangesloten.

Door deze Federatie wordt n.a. getracht juist bij de kindertijd te komen van een actie postzegels ten bate van het Antilliaanse kind.

Dit maal werd een tekenwedstrijd uitgeschreven onder het motto: "voor het kind door het kind" voor de 46.128 schoolgaande kinderen, om tot een ontwerp te komen van de nieuwe serie.

Press, radio en TV, werden ingesprekend om aan deze tekenwedstrijd bekendheid te geven.

Uit de 2700 inzendingen werden de 5 meest geschikte en originele tekeningen geselecteerd en bestemd voor ontwerp van de kindpostzegels.

De 5 kinderen, waarvan de tekening bekend werd, zijn afkomstig van Curaçao, Aruba, Bonaire en Saba en zaten resp. in de 1e, 2e, 3e en 5e klas.

ADMIRAAL P. L. BRION

P. L. Brion werd in het jaar 1782 op Curaçao geboren. Hij was de zoon van Pierre Brion, een rijk koopman op Curaçao, en Marie de Treb.

Reeds op zeer jonge leeftijd reisde Brion naar Amsterdam, Nederland, waar hij zijn opleiding genoot. Almer 17 jaar oud vocht hij als vrijwilliger bij de Bataafse Leger tegen de Engelse troepen. In deze veldtocht viel de jonge Brion zich op bijzondere wijze te onderscheiden. Bij Castillon viel hij als krijtgevangene in handen van de Engelen en werd naar Engeland overgebracht.

Na zijn vrijlating trook hij naar de Verenigde Staten ten einde zich in de scheepsbouw te bekwamen.

Ook op Curaçao heeft Brion zich in de strijd onderscheiden. Gedurende de Engelse blokkade van Curaçao viel hij behaardelijk de Engelsen te verscheiken en zijn geboorteland van voedsel te helpen, terwijl hij en Flar van het hoofd van de plaatselijke strijkkrachten verscheidene keren de Engelse schepen afkregen en meer dan eens de binnenlandse vijand versloegen. Vervolgens werd Brion van de onderhandelingen die Miranda in het buitenland onderzocht en gunde van de vrijheidsdank en van zijn overgenomen invaas op de Venezolane kust.

Wolfs gemaakte hij betrokken bij de vrijheidsoorlog waarin hij zich met hart en ziel stortte en welke hem heeft gemaakt tot een der grote vrijheidskrijgers van Zuid-Amerika.

Op 27 september 1971, bij de honderdjarige herdenking van Brion overlijden geven de Post-rijen van de Nederlandse Antillen een bijzondere postzegel uit in de waarde van 45 cent. The Netherlands Antilles, six islands in the Caribbean, in the field of youth care have to contend with the same problems as everywhere else. To promote an efficient organization the Antillean Youth Care Federation was founded to which at present 45 foundations and associations are affiliated.

The proceeds of the annual issue of the child welfare stamps are put at the disposal of the Federation, which uses this money to support the affiliated institutions active in the field of youth care. For the designs of the Youth Care stamps 1972 the Netherlands Antillean artist Nigel Mathew selected the theme – the child in his play with the elements, earth, water and air –.

These elements, earth, water and air are symbolized on the stamps by colour-bars, which when the stamps are stuck together – no matter in what sequence – form a unity.

The Bureau for Culture and Education is the Central Department in charge of sports affairs in the Netherlands Antilles.

The various sports are organized in associations, and the various associations are affiliated to the several federations.

There are in the Netherlands Antilles 13 federations, which in their turn are affiliated to the N.A.O.C. (Netherlands Antillian Olympic Committee).

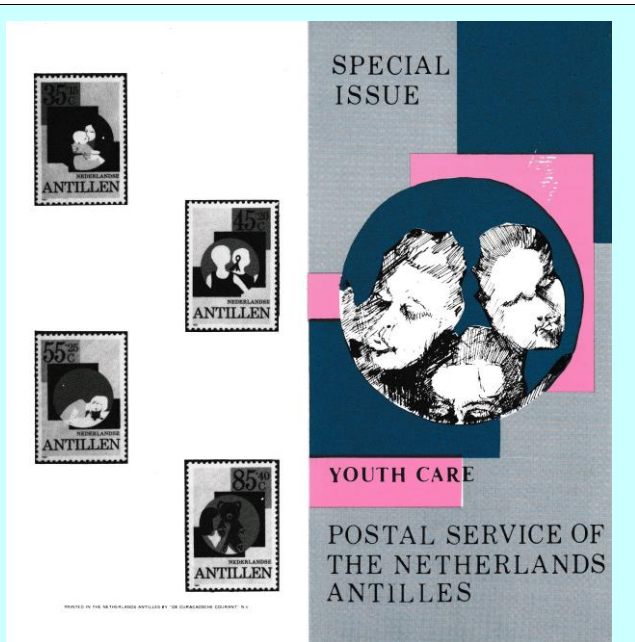

The Sports stamps are issued for the stimulation of sport in the Netherlands Antilles in particular.

The proceeds of the surcharge on the Sports stamps are distributed to Netherlands Antillian associations or foundations, in so far as they serve a national or international interest in the field of sports (or pursue a humanitarian or cultural aim).

On May 27th 1981 the Postal Service of the Netherlands Antilles will issue a series of special stamps, which is an annual event recurring the first half of each year, with a surcharge, namely the "Sports stamp".

This year the "Sports stamps" will be issued in the following denominations: 30 + 15, 50 + 20, and 70 + 25 cents, which represent the Sports of tennis, swimming, and boxing respectively.
